PROFILE AND OBJECTIVES

I'm a Computer Engineering graduate with a solid foundation in cloud computing, web development, and a growing passion for AI and machine learning. Driven by curiosity and hands-on learning, I've worked on cloud-integrated ML frameworks using AWS SageMaker and EC2, built a CNN-based traffic light recognition system, and developed full-stack web applications. I'm proficient in Java and Python, with working knowledge of React.js, Node.js, and various AWS services. Through certifications, project-based learning, and a DevOps internship focused on scripting and Git fundamentals, I've actively expanded my technical skill set. I'm now excited to bring my experience and enthusiasm to forward-thinking teams building real-world solutions in AI, cloud, and web platforms.

EDUCATION

Bachelor of Science in Computer Engineering
Jose Rizal University

SKILLS

Programming Languages: Java, Python.
Hardware Design: Arduino, Breadboarding, ESP32
Software Tools: AutoCAD, Fusion360,
Apache NetBeans, Visual Studio,
Cloud Computing: AWS Cloud Services
Web Development: JavaScript, React.js, Node.js,
Express.js, PHP
Operating Systems: Windows, Linux
Database Management: MySQL, Firebase

PROJECTS

- Bright Light, Noise Alarm GPS Tracker, and Android App
- Queuing & Order Management System
- Inventory Management System
- Cloud-Integrated Machine Learning Framework with AWS SageMaker and EC2
- A.I. Traffic Light Recognition System Using CNN
- Central Student Council Website

SEMINARS & WORKSHOPS

2024

- Automation in the industry with Machine Learning and Cloud Computing Seminar
- Introduction to ETL Processes From SQL to NoSQL Database Using AWS Glue
- PHP and Laravel Workshop
- Sustainable Development through PLC, HMI, and SCADA Systems

COMMUNITY INVOLVEMENT

2024

- Java Tutor for 2nd and 3rd year Students - Jose Rizal University
- Speaker & Volunteer, Guardians of Wellness: A Multiverse of Experience - Marawoy Elementary School

EXPERIENCE

DEVOPS INTERN

Revlv Solutions Inc. | January 2025 - April 2025

FOUNDER AND PRESIDENT

AWSLC -Shaw | September 2024 - May 2025

ASST. TREASURER / WEB DEVELOPER

Central Student Council -JRU | Aug 2024 - May 2025

AWARDS AND RECOGNITION

2024

- Champion, University CSE Pitch Competition
- Silver Medal, TESDA NCR, Internet of Things Regional Competition
- Finalist, ICPEP NCR CPE Challenge: Breadboarding Category
- Service Excellence Award, ICPEP.SE -JRU.Ch
- Most Dedicated Officer Award, ICPEP.SE -JRU.Ch
- Certificate of Recognition, CODE FUSION, Java Tutor

CERTIFICATIONS & TRAINING

2024

- AWS Academy | Cloud Foundations
- AWS re/Start Graduate - AWS Siklab x Edukasyon.ph
- AWS re/Start Graduate Training - V2
- AWS CloudQuest | Cloud Practitioner
- ANN and ML using MATLAB | Udemy
- Java 17 Masterclass: Start Coding in 2024 | Udemy
- Programming Hub Certificates : Python, Java, Linux

COMPETITIONS

2024

- UMAK 13th I.T Olympics Competition - Linux Category
- TechUp Inter-University Innovation Challenge
- Solana Radar Hackathon
- Innogen Phase 1: Mega 100 Qualifier

2025

- Innogen Phase 2: Mega 50 Qualifier
